Who Have Gone Over the
Divide.

ADAM ERTTER, one of the best known citizens of Gettysburg, died at his home on Chambersburg street on last Wednesday, aged 62 years, 7 months and 7 days.

Adam Ertter was a native of Gettysburg, a son of John Ertter, and in a life of great activity became known all over the county and held in high respect, especially by those with whom he was associated in business dealings.

As a boy he worked on the old Gettysburg, Hanover and Hanover Junction railroad, first as a brakeman, engineer and conductor. The first warehouse after the building of the railroad operated at the point where Wolf warehouse is now located, was managed by the Glattfelter. The late P. H. Glattfelter recognized his many good qualities and at the close of his railroad days about thirty years ago, he went into the employment of P. H. Glattfelter for his paper mills at Spring Grove.

Mr. Ertter became the representative of Mr. Glattfelter in Adams county in the purchase of all kinds of wood used in the manufacture of paper and he was familiar with ever nook and corner of the woodland of the county and gave his employer faithful service which was recognized time and time again.

Mr. Ertter was always interested in every movement for the welfare of the town. He gave all the encouragement in his power to the building of the trolley here, and lost money and labor in his efforts. He served as a member of Town Council for two terms of three years each. He was a firm Democrat. He was engaged in the hay business for a number of years. He became interested in the development of the battlefield and painted a large diagram of the field which he took great pleasure in showing visitors. THE SCHOOL PROBLEM IN HANDS OF SPECIAL COM- MITTEE OF SCHOOL DIRECTORS

Only Solution is a New Building—
Directors have Visited Other
Towns.

The School problem of the borough of Gettysburg is giving the school directors special concern these days. The question that does not admit of debate is, that the public school buildings and rooms are overcrowded. In some of the rooms every desk is occupied and there is no room for new desks. The overcrowding is interfering with the work of the teachers and the welfare of the children. Only recently the information was given that in one school there were scholars who had fully completed their studies and were ready to be promoted but there was no desk room in the next room. As COM-PILER has before noted there are school rooms with over 70 scholars with a single teacher and the average for each teacher in the borough is nearly sixty scholars. To expect any teacher to handle effectively that many scholars is asking too much, not only of the teacher but for the good of the scholar.

The solution of the school problem can be had in only one way, as COM-PILER months ago pointed out, that the time for a big new school building has come. It may increase the school taxes but there is no escape. When there is no room the only way to get room is to make room, economically and with the needs of the near future in sight.

J. E. Musselman, J. O. G. Weaver and Harry Holtzworth were appointed a committee of the School Directors to find a solution for the school problem. Last week in Company with Prof. I. W. Book they visited Shippensburg, Carlisle and Steelton, going through the public school buildings of those places and getting all the information possible to help them to give this town the proper remedy for the present troubles.

This committee will make a report at the next meeting of the Board of School directors and it is to be expected that some decision will be reached at an early date.

Removal of Lights.

The failure of a motion at the last meeting of the Town Council to remove an arc light needs some explanation to be understood.

Councilman Foutz made the motion to replace the arc light at Washington and Stevens streets that had been moved to Washington and Broadway. Councilman Beck at once explained that the motion could not be passed at that meeting because two councilmen were absent, as the council had passed a resolution that no light could be changed from one place to another without the unanimous consent of a full council. This resolution grew out of the fact that citizens had made suggestions seeking to have lights swapped about, and as the lights had been placed by the council as satisfactorily as it was possible to arrange them, and as it was a matter of much expense to rewrite for changes the resolution was passed that lights could only be changed by a unanimous vote at a full council. In view of this fact as explained by Councilman Beck, the motion of Councilman Foutz was voted down, and not because a change of light at the point indicated was undesirable.

THE WINTER PRIMARY. AUTHORIZED BY CO. COMMISSIONERS TO BE HELD JAN. 25.

Jan. 4 Last Day to File Party Petitions for Borough and Township Officers.

The County Commissioners have decided that nominations for the spring election shall be made under the new law. The law fixes the date for the winter primary for the spring election to be held on last Saturday of January, which will come Jan. 25th.

Petitions for all township and borough offices must be filed with the County Commissioners three weeks before the Primary. That is, by Saturday, Jan. 4, all petitions for borough and township offices must be filed with the County Commissioners. Blank petitions can be had by calling upon Clerk to Commissioners Joseph M. Rushman, or by writing to him. Petitions must have 10 signers. The County Commissioners in every district should make it a special duty to get and circulate petitions and have them filed in time.

Unless this is attended to townships and boroughs may find themselves embarrassed for the want of officers to administer the affairs of the districts. Time is getting short, only 18 days until petitions must be filed, and work should be started in every district at once. Any one desiring to be a candidate should get out his petition immediately. Offices to be filled are Burgees, Town Council, Justice of Peace, School Directors, Auditors, Supervisors, Judge of Elections, Inspectors, Assessors, Clerks and other district officers in which the terms are expiring next Spring.

Opened Letters.

Daniel Martin, of Fountaindale, this county, was found guilty in the United States District Court at Harrisburg last week of opening letters passing through the mails. It was not alleged that he ever took any money from letters but opened them merely to satisfy a curiosity about their contents. He is 58 years old, and at one time was postmaster and later was a clerk in the Fountaindale office and while serving in latter capacity he opened letters. He was fined \$50 and costs, amounting to several hundred dollars, and fine and costs being paid by a relative, he was released from custody.

Big Trolley Mortgage.

The consolidation of all the trolley lines in York County have been completed with the new corporation to be known as the York Railways Company. A mortgage was filed of record in York County last week for ten million dollars by the new corporation. It is said to be the purpose of the company to float the bonds which the mortgage secures to raise the money for the construction of additional lines and other improvements. It is to be hoped the money will hold out to complete a line to Gettysburg.

Rev. Craig's Book of Poems.

We are in receipt of a volume of "Poems" by Kenneth Machintosh Craig, who is pastor of the Presbyterian Church of Emmitsburg. The book comes from the press of "Emmitsburg Chronicle," is well printed and is neatly and tastefully gotten up. Rev. Craig is a native of old Scotland and through his poems runs that gift of music that belongs to the people of his country. There is a happy optimism in his thought and song that gets near mortals. The book will make a fine Christmas present and will be on sale during the Xmas season at Buehler's Drug Store, price \$1, and also the song of the seasons, "My Dark Marie," one of the poems of Mr. Craig for 25 cents.

Court Notes.

In the estate of Levi Snyder, late of Freedom township, H. P. Bigham administrator, was allowed to pay the share of \$200.89 of David Snyder, a person of weak mind, into Court.

John W. Yeatts was discharged as guardian of Wm. Alice Yeatts, dec'd.

Bob Taylor's Lecture.

Bob Taylor, erstwhile Governor of Tennessee, now U. S. Senator from his state and all the time a big human, warm hearted man has been to Gettysburg and captured the place. He lectured on "Air Castles" in Bruns Chapel last Friday evening, opening the College Y. M. C. A. course for the winter most auspiciously. The speaker was greeted with an audience that filled the chapel and his lecture was an inspiration. Beautiful language quaint illustrations, charming stories, warm with sunshine and music made a rare treat.

A SOLDIER'S AUTOBIOGRAPHY

WRITTEN AT REQUEST OF COMPILER SEVERAL YEARS AGO

Found Among His Papers and Reproduced Exactly as Written—Modest as the Man Who Wrote it.

Nicholas George Wilson.

Was born on the 6th day of October 1832 at Wilkesville, Menallen Township, Adams County Penna. His father Benjamin F. Wilson followed the occupation of a Teamster hauling goods and emigrants from Philadelphia to Pittsburgh, Pa. and loading butter, eggs and hick. His father dying when he was two years old he was left to the care of his mother and grandfather George Wilson. He remained on his grandfather's farm until he was a little over sixteen years of age, when on the first of April 1848 he went to Centre Mills in Adams County, Pa. to learn the blacksmith trade and after serving an apprenticeship of two years, went to work at the trade in Bendersville for Charlie Myers near his old home, worked there until he met with an accident having his ankle dislocated by a horse jumping on him, which he was shoeing. After recovering from the accident worked in Hanover, York County, Pa. at carriage smithing for some time, in the year 1850. Returning home in the Fall ran a stationary engine in a shingle factory 1851. Worked at the blacksmith trade again in Bendersville from January 1852 until September of the same year, when he was married on the 28 day of October 1852 to Wilhelmina E. COMFORTING WORDS

Many a Gettysburg Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Gettysburg readers.

Mrs. Vina E. Weirick, lying at 43 Breckenridge St., Gettysburg, Pa., says: "I was in poor health for years as a result of weak and diseased kidneys. I was nervous, suffered from severe headaches, my back ached constantly, and there were sharp pains through my sides and loins. I was often very dizzy and at times spots would float before my eyes. I had but little ambition, and the least work would exhaust me. Doan's Kidney Pills were finally recommended to me and I procured a box at The People's Drug Store, began to use them according to directions, and received a great amount of good. I am much better now than before in years and feel that I owe all to Doan's Kidney Pills."

The last paragraph has been added by the editor of the COMPILER under directions of family.

This autobiography was written by Sergeant Wilson at the request of the Editor of the COMPILER and was found among his papers, and he had directed his wife to give it to the COMPILER.

The record given us tells of the man who wrote it, modest to a fault, simple and direct like a soldier. It was written in that clear plain writing of his, like a copybook. The writer did not allow himself to indulge in the many experiences of his life that would thrill and amuse, of which in conversation he would speak. It was after listening to him the editor asked Sergeant Wilson to write the story of his life.

Sergeant Wilson took great delight in keeping a set of records. He left dairies covering more than 30 years of his life, with daily entries, the most important event of each day with state of weather. He kept the War records of many soldiers and from these be made up the War Record of the G. A. R. Post of Gettysburg.

MAKING AND LOBING FRIENDS.

Reflective Man Points Out Fault of the People of To-day.

"I'm not so sure," observed the doctor reflectively, as he watched the smoke curl upward from his cigar, "that we Americans are not neglecting one of the most important of the arts—the art of making friends. It wouldn't do anybody a bit of harm to take half an hour off and sit down to go over the accessions to his friends within the past year or so. Incidentally, he might reflect on what he has done in the way of keeping up old friendships. It seems to me that people drift apart very quickly nowadays. Absorption in business is one factor making for this end; another is the growing disinclination to keep up any sort of correspondence, and a third is a tendency, increasing as the years go by, to let one's personal interest become more centered. All of these things militate against the making of new friends, as well as helping to loosen the bonds holding the old ones. The fault," he concluded, "isn't in the people whom we meet; it's in ourselves, and we might as well realize it. Let us look for likable qualities, and not the reverse. There is such a thing as being too cautious about our acquaintances, and thus shutting ourselves off from much pleasure and profit."

QUEER NAMES USED IN CHINA.

Much the Same Idea as That of the North American Indian.

"We Chinese," said the law student, "give our children queer names. Our girls, for instance are not called Mabel, Jenny or Matilda, but Cloudy Moon, Celestial Happiness, Spring Peach or Basket of Perfumes. Our boys get less delicious names. Boys are made for work and wisdom, rather than for dancing and pleasure, and their names show this, as Practical Industry, Ancestral Knowledge, Complete Virtue, Ancestral Piety, Discreet Valor. To our slaves we give still another set of names. Yes, those dear, pathetic little slaves of ours, some girls, some boys, who do a hundred various little tasks about the house, these lowly creatures have names like Not For Me, Joy to Serve, Your Happiness and Humble Devotion."

Up-to-Date Laundress.

Users of the telephone are becoming so numerous that it is not surprising to find one installed in almost every home, but it did seem rather an up-to-date affair for a negress to have one in the back room that comprised her "apartments." A woman who wanted an extra bit of washing done in a hurry had gone into the small alley in search of her. "O, Miss Brown," said the washerwoman, "you needn't to have come clear down here for me. I've got a telephone." And, sure enough, there sat one beside her tubs. The astonished patron said: "But Lizzie, I thought you didn't wash for but three persons; do you need a telephone?" "Well, Miss Brown," said Lizzie, modestly. "I ain't got but three women to wash for, but I got a pretty daughter."—Philadelphia Record.

The Face and the Emotions.

Habitual worry shows itself in the action of the facial nerve—the nerve of expression, as anatomists call it—producing lines which in course of time become permanent. The same is true of many other emotions and states of mind; and those which are dominant in the life of the individual will ere long produce permanent changes in the face. The secret of the beauty which age cannot wither is to possess a beautiful mind, chin-strap and depilatories and electricity and massage and cosmetics are poor make-shifts compared with this.

Family Life in France.

Modern France is the stronghold of the family system. See a French family at dinner in a restaurant, or, for that matter, at home. You will never see a gayer, livelier function. There is such a frank and unassumed sense of community about the whole thing. The boys adore their mother, the girls their father, the parents take such a whole-hearted delight in their children, and the children are so happy and respectful. It is a sight of which every Frenchman may be proud.

"Cash" and Domestic Rows.

That money is the "root of all evil" is a maxim we all learned in our copy-book days. And 80 per cent. of newly-made wives discover to their astonishment that money worries, disputes over bills, and accusations of "extravagance" against the lady of the house are at the bottom of the clouds and thunder storms which rouse the honeymooners to the fact that "life is real, life is earnest," and not an unending chapter of connubial bliss, courting and kisses.

An Unimportant Matter.

Reporter—Was the operation a success, doctor? Eminent Scientist—Oh, completely so! I demonstrated beyond dispute exactly what I contended all along. Reporter—Then the patient is all right? Eminent Scientist—The patient! The patient died. But why in the face of my triumphant vindication do you want these unimportant details?

A Different Medium.

That pretty little sculptor, as you met at our reception the other eve, simply turned my head. Wasn't she indeed! I knew she had a right to, but I wasn't aware that she worked in wood.

STAGE REFLECTIONS.

An elaborate setting will not improve a foul play.

The advice of critics is like medicine after death.

A poor play is like a cigar—it requires judicious puffing.

Actors are naturally sensitive. So is the hide raw after a beating.

In vaudeville when an actor is bad they close in on him; in the legitimate they close down.

A loud laugh may denote the vacant mind, but the play which provides it rarely has vacant seats.

The actor who depends upon the barroom mirror for reflection will fail as surely as that ice freezes with the slippery side up.

The actor who keeps his eye steadily fixed on the three stars on a brandy bottle is finally convinced that he is one of them.

Why is that our dramatists do not employ our critics to point out their errors in advance of productions, and thus avoid failures?

If an actress allows her hair to turn gray you may put it down that she either has not the price or is a hundred miles from the colorine establishment.

The number of times an actress has figured in a divorce court is no more an indication of her cleverness than that the size of a gravestone tells how big a man was.

CHURCH AND CLERGY.

The largest bible class in Great Britain is at All Saints' church, Sheffield. The average attendance is 1,600.

Out of 3,348 Wesleyan Methodist ministers in Great Britain, Ireland, and the colonies, 325 hold degrees from various colleges and universities.

The great cathedral at Cologne, although completed but a few years ago, has so deteriorated from factory smoke that the body of the church will have to be renovated throughout.

The Methodists of Seattle have erected a large tabernacle for revival services, and will present the structure to the city for a market house when no longer needed by the church.

The Methodists of Manayunk, Philadelphia, have a "girls' ushers' association," which is a great attraction. Pretty girls dressed in white guide strangers to comfortable sittings, and the preacher finds the experiment most satisfactory.

Bishop Moule of mid-China, brother of the bishop of Durham, has been in charge of this diocese of 100,000,000 souls for over twenty-five years. No fewer than fourteen of his family are active workers in the mission field abroad. The first European missionary to settle in an interior Chinese city away from a treaty port, Bishop Moule made Hangchow his headquarters.

SAYS THE OWL.

A friend in need is a surprise in deed.

It's almost as easy to lie as it is to lose money.

It's easy for the average woman to keep a secret—going

When all is lost save honor some men get on their dignity.

You are not the only one; there are others who talk too much.

When a girl in love becomes thinner it's a case of "loved and lost."

Many a man who thinks he is brilliant isn't even ordinarily bright.

Popular music is probably so called because it soon becomes unpopular.

Give a man a good dinner and he will remain in a good humor for at least an hour.

He is indeed a rare youth who never sent his best girl something soft—fruit, candy or letters.

"Blessed be the tie that binds not" would be an appropriate motto for the woman who has been divorced seven times.

THOUGHTS BY THE WAY.

It is a fine thing to make yourself needed.

Often by one act, one word, man makes his destiny.

He who makes constant complaints gets little compassion.

The desire to please is born in women before the desire to love.

Time is the capital of men who have but their intellect for fortune.

One may study and gain knowledge; one must live to gain wisdom.

Humility is the foundation of all wisdom, pride the summit of all folly.

A Woman's Back

Has many aches and pains caused by weakness and falling, or other displacement, of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness.

If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cures. It is the most potent invigorating tonic and strengthening medicine known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills.

You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy or known composition, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.

Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over forty years ago, much imitated but never equaled. Little sugar-coated granules—easy to take as candy.

Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man. If physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But combined with Erysipina Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given the greatest possible power to correct constipation. A toothsome candy tablet, called Lax-o, is now made at the Dr. Stearns Laboratories, from this ingenuous and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Hollow Complexion, etc., is indeed prompt and satisfying.

No emptying, no unpleasant after effects are experienced, and Lax-o's are put up in beautiful lithographed metal boxes at 5 cents and 15 cents per box.

STONE JUG HAPPENINGS.

STONE JUG, Dec. 9.—Mr. and Mrs. Daniel Fidler of this place left last Saturday for a trip to Troy, Ohio, to visit their son David, and wife, also friends and relatives at Piqua, Ohio.

John Dutera has sold his farm in this place to Isaac Howe for \$1600.

There is quite a lot of corn to husk in this vicinity. Your correspondent in a recent trip saw in the upper end of the county large fields with very little husked in them.

George Beamer, the clever clerk, who has been employed by Lower Bros. for the past year, went to Philadelphia last week in search of a place but he is back again with his former employers, and the girl he left behind him.

The Christmas Dinner.

In spite of the fact that the word dyspepsia means literally bad cook, it will not be fair for many to lay the blame on the cook if they begin the Christmas Dinner with little appetite and end it with distress or nausea. It may not be fair for any to do that—let us hope so for the sake of the cook! The disease dyspepsia indicates a bad stomach, that is a weak stomach, rather than a bad cook, and for a weak stomach there is nothing else equal to Hood's Sarsaparilla. It gives the stomach vigor and tone, cures dyspepsia, creates appetite, and makes eating the pleasure it should be.

USED POISON OF RATTLESNAKE.

Preparation That Made War Arrows of Cherokee Indians Deadly.

An old Cherokee Indian recently gave away the secret how the Indians of olden times used to poison their arrow heads for war purposes or for killing bears, according to the Denver Field and Farm. They took a fresh deer liver, fastened it to a long pole, and then went to certain places where they knew they would find rattlesnakes in abundance. About midday the rattlers are all out of their dens, coiled up in the cooking sun. The bucks would poke the first rattler they found with the liver on the long pole. A rattler, unlike common snakes, always shows fight in preference to escaping. The snake would thus repeatedly strike at the liver with its fangs until its poison was all used up, whereupon it would quit striking and try slowly to move on. The bucks would then hunt up another rattler and repeat the performance, keeping up the work until the liver was well soaked with snake poison. Then the pole was carried home and fastened somewhere in an upward position until the liver became as dry as a bone. The liver was then pounded to a fine powder and placed in a buckskin bag, to be used as needed for their arrows. This powder would stick like glue to any moistened surface and was death to any creature which it entered on arrows.

ELY'S CREAM BALM has been tried and not found wanting in thousands of homes all over the country. It has won a place in the family medicine chest among the reliable household remedies, where it is kept at hand for use in treating colds in the head just as soon as some member of the household begins the preliminary sneezing or snuffing. It gives immediate relief and a day or two's treatment will put a stop to a cold which might, if not checked, become chronic and run into a bad case of catarrh.

XMAS CHEER.

Christmas cheer like almost all other virtues begins at home and the human that expects to get it or give it by going out of his home town is beginning at the wrong end. The Gettysburg merchants, the home merchants, have provided lavishly for the giving of Xmas cheer, and the home people in the last ten days of the season should pour out to our merchants the Xmas cheer of buying.

THE THIRD TERM.

President Roosevelt has again announced that his declaration made immediately after his election that he would not be a candidate for re-election has not been and will not be changed. Congratulations have been pouring in upon him from every section of the country for his stand of being true to the traditions of the country. The national sentiment should be crystallized into an amendment to the constitution making the Third Term an impossibility.

BATTLE FLEET.

President Roosevelt has called the great fleet of warships which started on Monday for the Pacific the "battle fleet." It is composed of 20 vessels and 14,000 men and will travel 14,000 miles, making only five stops. Sixteen of the fleet are battleships. Rear Admiral Fighting Bob Evans is in command and in his little spee before sailing he expressed the hope that when the Pacific was reached orders would be waiting for a demonstration of peace to the nations of the world. Peace with the best battleships and guns America can produce does not sound peaceful, and as "war is hell" demonstrations of peace might be more appropriately made in some way to help develop the markets of the world for our wonderful industrial and commercial prosperity.

NATIONAL DEMOCRATIC CONVENTION.

The next Democratic National Convention will meet in Denver on July 7, 1908. Denver won on the second ballot over Louisville largely because former city made an offer of \$100,000 contribution as against one of \$50,000 from the latter city. Now that the place has been decided the naming of the candidates will be a matter that will be much debated by Democrats. Wm. Jennings Bryan is willing to accept if tendered the nomination and there are likely some other Democrats who would accept if nominated. The positive withdrawal of President Roosevelt is said to prejudice Bryan's cause, that as between a third term and Bryan the latter would have had the advantage, but with a fresh Republican candidate the Democratic party would wage a somewhat hopeless campaign with the familiar Bryan. The sentiment in the East seems to be centering on Judge Gray of Delaware.

NEW STATE HIGHWAY LAW.

At a meeting of grangers at West Chester last week that Democratic war horse, Hon. Wm. T. Creasy, condemned not only the present laws of the state, providing for road building, but also gave expression to the dissatisfaction from every part of the state with the roads built by the Highway Department of Harrisburg. He believes the next Legislature will be called upon for relief.

The Highway Department could study road building to great advantage at Gettysburg. The state roads that have been built or are being built in this county are going to cost from \$12,000 to \$14,000 a mile and according to information given the roads will be of 12 inches of macadam. The Gettysburg Battlefield Commission are building roads under contract that are 18 inches deep, that are never damaged by frost and winter, that are in good condition the whole year around, and these roads cost the United States Government about \$3,000 a mile.

BARLOW FARMER BUYS FARM.

BARLOW, Dec. 14.—Irvin Beard Black our young hustling farmer has bought of Mrs. Andrew Worley of Mountjoy township her farm of 100 acres for the sum of \$250 and will move there in the Spring.

Emory Hildabrand of Mountjoy township lost a valuable horse last week by death.

Have you seen Oliver Beard Sharetts of the lower end of Cumberland township, how big he steps around keeping no account of common people and all on account of a brand new daughter.

S. S. Schriver of Cumberland township was threshing on last Monday. The engine was close to a hay shed about 10 o'clock the roof of the shed caught on fire. The fire is supposed to have been caused by a spark from the engine. With presence of mind the fire was extinguished, as they had plenty of water on the ground.

James Currens killed a hog recently weighing over 300 lbs.

Many farmers are complaining of a large quantity of soft corn in the husked crop.

There are a number of sick in this community. Mrs. Susan Baker, 82 years old, has been suffering with something like a stroke. Mrs. Mattie Metz is still confined to her bed, and children in the Straubaugh and Moritz families have been ill.

Mrs. Chamberlin will make her future home with her daughter, Mrs. Mary Staley of Waynesboro.

The birthday of Jacob Kump was celebrated with a party and a large number of guests enjoyed the occasion very much.

How to Save Money.

In these times when living expenses have increased from thirty to fifty per cent, it is unusual to hear of a standard remedy being offered at half price.

Yet that is the way L. M. Buehler, the popular druggist is selling Dr. Howard's celebrated specific for the cure of dyspepsia and constipation. In addition to selling a fifty cent bottle, containing a month's treatment of sixty doses, for 25 cents, he gives his personal guarantee with every bottle he sells or refunds the money if it does not give satisfaction.

This unusual offer has brought hundreds of customers to his store in the last few weeks, yet out of the many bottles of Dr. Howard's specific he has sold, but one customer has asked to have the money returned. This was done without any questions, although L. M. Buehler does not think the remedy could have been given a fair trial.

Doctor's bills can be saved by the use of Dr. Howard's specific for the cure of dyspepsia and constipation, and by taking advantage of this special half price introductory offer, our readers can save half the regular price of the specific.

Do not let this opportunity pass to obtain a standard fifty cent remedy at half price. Remember that Druggist L. M. Buehler will refund your money if Dr. Howard's specific does not cure.

CHILDREN'S MEETING.

EAST BERLIN, Dec. 16.—An interesting children's meeting was held in the German Baptist meeting house in this place on last Sunday. Elder H. K. Ober of Elizabethtown, talked on subject "Though your sins be as scarlet they shall be as white as snow," and Elder A. P. Snader, of Sam's Creek, Md., talked on subject, "How can parents and church members be made to realize that they are needed in the Sunday schools." Both are able speakers and good attention was given them.

The Kidneys

When they are weak, torpid, or stagnant, the whole system suffers. Don't neglect them at this time, but heed the warning of the aching back, the bloated face, the sallow complexion, the urinary disorder, and begin treatment at once with

Hood's Sarsaparilla

which contains the best and safest curative substances.

In usual liquid form or in chocolate tablets known as Sarsaparilla. 100 doses \$1.

SIMPLE HOME RECIPE.

PREPARE THIS SIMPLE RECIPE AT HOME AND TRY IT.

Druggists Here in Town Say They Can Supply the Ingredients or Make up the Mixture.

Get from any prescription pharmacist the following:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Shake well in a bottle and take a teaspoonful dose after each meal and at bed time.

The above is considered by an eminent authority, who writes in a New York daily paper, as the finest prescription ever written to relieve Backache, Kidney Trouble, Weak Bladder and all forms of Urinary difficulties. This mixture acts promptly on the eliminative tissues of the Kidneys, enabling them to filter and strain the uric acid and other waste matter from the blood which causes rheumatism.

Some persons who suffer with the affections may not feel inclined to place much confidence in this simple mixture, yet those who have tried it say the results are simply surprising, the relief being effected without the slightest injury to the stomach or other organs.

Mix some and give it a trial. It certainly seems highly recommended. It is the prescription of an eminent authority, whose entire reputation, it is said, was established by it.

A druggist here at home when asked stated that he could either supply the ingredients or mix the prescription for our readers, also recommends it as harmless.

SEARIGHT NELL of near Hermitian claims the biggest porker yet killed, weighing 608 lbs.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

"Time, the Great Healer."

A doctor who had treated a patient for a long time without giving relief finally wrote to him that he could do no more, and that tempus edax rerum was the only remedy. The patient immediately went to a drug store and applied for the remedy. The druggist gave him a bottle of some kind of mixture and charged him a large sum for it. After the patient had taken the compound for some time he met his doctor and thanked him for the wonderful prescription, which had cured him. The druggist's trick was discovered and the patient sued him for the money spent on the bogus medicine.

Trend of Civilization.

I had thought that civilization meant the attainment of peace and order and freedom, of good will between man and man, of the love of truth, and the hatred of injustice, and by consequence the attainment of the good life which these things breed, a life free from craven fear, but full of incident; that was what I thought it meant, not more stuffed chairs and more cushions, and more carpets and gas, and more dainty meat and drink—and therewithal more and sharper difference between class and class.—William Morris.

THERE is something about Kennedy's Laxative Cough Syrup that makes it different from others, as it causes a free yet gentle action of the bowels, through which the cold is forced out of the system. At the same time it heals irritation and allays inflammation of the throat and lungs. It is pleasant to take. Children like it. Contains no opiates nor narcotics. Sold by the People's Drug Store.

Beware of Frequent Colds.

A succession of colds or a protracted cold is almost certain to end in chronic catarrh, from which few persons ever wholly recover. Give every cold the attention it deserves and you may avoid this disagreeable disease. How can you cure a cold? Why not try Chamberlain's Cough Remedy? It is highly recommended. Mrs. M. White, of Butler, Tenn., says: "Several years ago I was bothered with my throat and lungs. Someone told me of Chamberlain's Cough Remedy. I began using it and it relieved me at once. Now my throat and lungs are sound and well." For sale by Peoples Drug Store.

AUGUSTUS KINDER of McSherrystown was hurt at Weaver Organ and Piano Co. of York by having a piano fall on him.

BEAUTY MORE THAN SKIN DEEP.

Every one who wants a good healthy color, and a clear skin free from biliousness, sluggish liver, and chronic constipation should get a package of Dainty Laxative tonic tablets, nature's sweet restorer.

Here's Good Advice.

O. S. WOOLEVER, one of the best known merchants of Le Raysville, N. Y., says: "If you are ever troubled with piles, apply Bucklen's Arnica Salve. It cured me of them for good 20 years ago." Cures every sore, wound, burn or abrasion. 25c. at The Peoples Drug Store.

WHENEVER you feel that your stomach has gone a little wrong, or when you feel that it is not in good order as is evidenced by mean headaches, nervousness, bad breath and belching, take something at times, and especially after your meals until relief is afforded. There is nothing better offered the public today for stomach troubles, dyspepsia, indigestion, etc., than KODOL. This is a scientific preparation of natural digestants combined with vegetable acids and it contains the same juices found in every healthy stomach. KODOL is guaranteed to give relief. It is pleasant to take; it will make you feel fine by digesting what you eat. Sold by People's Drug Store.

THE new house of H. G. Baugher at Aspers has been completed.

Good Cough Medicine for Children.

The season for coughs and colds is now at hand and too much care cannot be used to protect the children. A child is much more likely to contract diphtheria or scarlet fever when he has a cold. The quicker you cure his cold the less the risk. Chamberlain's Cough Remedy is the sole reliance of many mothers, and few of those who have tried it are willing to use any other. Mrs. F. E. Statcher, of Ripley, W. Va., says: "I have never used anything other than Chamberlain's Cough Remedy for my children and it has always given good satisfaction." This remedy contains no opium or other narcotic and may be given as confidently to a child as to an adult. For sale by Peoples Drug Store.

Keep Watch on the Tongue. It is not given to every chance word to be handed down the ages. But this saying of Carlyle's still holds good: "No idle word thou speakest but is a seed cast into eternity. And the recording angel (consider it well) is no fable, but the truest of truths."

Napoleonic Foresight. Napoleon was crossing the Alps. "Fine business. Some day some one will write this up, and then I will be known as Napoleon the Great." Chuckling at his foresight, he lighted a Pittsburg stogie and continued faring.

Disease Threatens Palms. The Madras agricultural department has started an extensive campaign in the Godavari delta to stamp out a very serious palm disease which threatens the extinction of palmrya and coconut palms in that part of the country.

GUARANTEED REMEDY FOR INDIGESTION.

Interesting Statement by The People's Drug Store.

When a man comes into this store and calls for any particular indigestion remedy, we always give him what he asks for, but in case he leaves it to us we usually recommend Pepsikola tablets.

Here is a preparation we have been selling right over the counter for years, and from actual observation we know it must do good, and really does cure indigestion and dyspepsia or there would be a steady stream of people coming back for their money, as every 25 cent box is sold with the understanding that you must be decidedly benefited or there is nothing to pay.

You simply try Pepsikola tablets with the understanding that they will steady your nerves, improve your appetite, relieve wind belching, coated tongue, sour stomach, fullness after eating, weakened energy, and other symptoms of indigestion or The People's Drug Store is ready at any time to pay back your money without the least argument.

A Real Wonderland.

South Dakota, with its rich silver mines, bonanza farms, wide ranges and strange natural formations, is a veritable wonderland. At Mound City, in the home of Mrs. E. D. "Exhausting coughing spells occurred every five minutes," writes Mrs. Clapp, "when I began giving Dr. King's New Discovery, the great medicine, that saved his life and completely cured him." BRINGING GEORGE TO TIME

Some fellows have no idea of the value of a girl's time—that is, a girl who is somewhere between 25 and 30. They just fall into the habit of dropping in to eat fudge or bits of cold chicken. It is nice to do so. Meanwhile, Maude is wondering how much longer she must keep her hair curled and pinch her cheeks to get the proper glow.

"If he doesn't mean business," she wonders, "why doesn't he move on and let Joe Smith have a chance?"

Joe isn't as good a prospect as George; still, he will do in case George can't be made to speak. But George continues to hold down the claim.

Maude tried many ways of inducing the backward one to toe the mark. Simple as the dear girl looked in her pretty white frock, she was deep and knowing. You couldn't blame her. It was necessary to do a little pulling. George really needed a derrick to hoist him. He had been coming there off and on for several years.

Maude was just in hot water, then, and it seemed a century since the

REBUKED THE GREAT WRITER.

American Was Not Awed by Grouchy Poet Laureate.

A writer in Harper's Weekly brings to light an interesting anecdote of Tennyson which well illustrates the singular habits of the great laureate in his intercourse with his friends. The poet was not only brusque and rough, but he was domineering and exacting, and most other men were afraid of him. But an American schoolmaster who for many years maintained a great intimacy with him had no fear in his heart, and sat and smoked on an equality with the sovereign singer by Farringford fireside.

"One evening," says the writer, "when the two were thus together, Tennyson said that he would depart from his custom and narrate a personal experience; but he had suffered a good deal from repetitions of his tales by those to whom he had told them, and he would be obliged to ask his friend never to repeat what he was about to hear. The American smoked on for a few seconds while Tennyson waited for the promise, and then he said: 'My lord, in my country a gentleman would never make that request of another gentleman.' 'H-h-m!' said the poet, and looked out of eyes that wondered if the quiet smoker opposite knew how much he'd said. Then he told the story."

CLEVER SCHEME THAT FAILED.

Old Salesman's Advice Left Firm Worse Off Than Before.

Henry Clews is telling a new story which he says he got straight from the Canal street district, says the New York Times. A young jobbing firm, the tale tells, overbought for the fall trade. Their heaviest mistake had been in the line of overcoats, which it looked they would have to carry over a season. Efforts to get cash for the stock were fruitless, except at ruinous rates. At last the firm went to an old-timer in the trade for advice. "Well," said the man of experience, "you've got a pretty good list of customers. Just divide the coats up into lots of thirteen each. Send a batch apiece to some of your sharpest customers, but make out the bills for twelve. They'll be so tickled to get one coat for nothing that they'll take 'em all." The scheme had been tried before the men met again. The old-timer waited for his praise. "Well, didn't they keep the coats?" he asked. "Yes," returned the jobber, sadly. "One each. The one that wasn't billed."

Ate Heart of Assassin.

A correspondent of the North China Daily News describes what followed the execution of an assassin: "When the heart of Hsu Hsi-lin was cut out of his body and had been laid before the remains of his victim as a sacrifice to the late governor's maids, members of his bodyguard, to signify their zeal and hatred of the assassin, seized Hsu's still warm heart and cutting it up into mince meat boiled it and served the grewsome dish among themselves to be eaten. This seems a poor way of revenging the death of one patron, especially since it was due to the very ineptitude and subsequent panic of this very brave bodyguard that enabled Hsu Hsi-lin to fire so many shots, without any kind of hindrance, at the late En Min."

House Eleven Hundred Years Old.

St. Albans possesses the oldest inhabited house in the country. This distinction is said to belong to the old Round house, now the Fighting Cocks inn, which stands close to the River Ver. It is a curious structure—of octagonal shape—of early Saxon origin, having been built as a boathouse to the ancient monastery founded at St. Albans by King Offa about the year 795, and is thus over 1,100 years old. A subterranean passage, now blocked up, runs from the basement to the ruins of the monastery, a distance of about 200 yards. There is a shed at the back of the house, where it is said Oliver Cromwell stabled his horse, himself once sleeping under its roof during the civil war.—Collecting.

Hypnotic Sunstroke.

A German physician who had a patient who could not afford to go to a warm climate, thought he would accomplish the same result by means of hypnotism. The doctor chalked a picture of the sun on the ceiling, and by suggestion induced the patient to believe it really was the sun and that it would cure him. But the patient soon died. When the doctor's friends gazed him about the novel treatment he indignantly explained that the patient was getting along nicely and would have got well had he not unexpectedly died of sunstroke.

Medical Training for Character.

As a school of character it is doubtful if any better could be devised than the routine career of a medical student. It is not claimed that every medical student at the end of his five-year curriculum will be found to have become a saint. But if he has not developed many qualities of self-restraint, courage, gentleness and forbearance, it is not for want of opportunity of practicing these virtues.

Enough and to Spare.

"And the name is to be"—asked the suave minister as he approached the front with the precious animal of fat and fountains. "Augustus Philip Perle and Codrington Chesterfield Livings: tea Saucers." "Dear me!" Turning to the sexton: "A little more water, Mr. Perkins, if you please."—*Laughs*.

OVER TWO THOUSAND VISITORS A DAY

Cooper Explains Reason for Remarkable Average of Boston Callers.

During L. T. Cooper's recent stay in Boston, it is estimated that sixty-five thousand people talked with him and purchased his medicine. This is an average of over two thousand a day.

His success was so phenomenal as to cause universal comment both by the public and the press. There must be a reason for this. Here is the reason given in his own words by Mr. Cooper when interviewed on the subject. He said:

"The immense numbers of people who are calling on me here in Boston is not unusual. I have had the same experience for the past two years wherever I have gone. The reason is a simple one. It is because my medicine puts the stomach in good condition. This does not sound unusual, but it is in fact the key to health. The stomach is the very foundation of life. I attribute 90 per cent. of all sickness directly to the stomach. 'Neither animals nor men can remain well with a poor digestive apparatus. Few can be sick with a digestion in perfect condition. As a matter of fact, most men and women today are half-sick. It is because too much food and too little exercise have gradually forced the stomach into a half-sick condition. My medicine gets the stomach back where it was, and that is all that is necessary.'"

Among Boston people who are staunch believers in Mr. Cooper's theory, is Mr. Frank D. Brown, of 57

THE ORIGINAL LAXATIVE CATHARTIC
KENNEDY'S LAXATIVE
CONTAINING HONEY AND TAR

HOW THEY GOT ACQUAINTED

After their marriage Jack Herrich
and Mary, his wife, thought their two
little rooms and kitchen the ante-
room of heaven. It was their first
home. A year later came the baby,
and then Jack kissed Mary and said:
"Now we're right inside of heaven."
And that baby! It was a mystery to
Jack, and there were times when he
was almost afraid of it.

Until the baby's arrival Jack had
been undisputed lord of his home and
had revelled in his comforts. The baby
immediately changed all that. Jack
had to speak in whispers, and when
once he dropped his pipe on the floor
Mary wouldn't speak to him for a
whole day. Moments came when Jack,
looking at the baby over the wife's
shoulder, would gaze at the little mite
and wonder silently how one so small
could have the power to revolutionize
a whole household and tyrannize a
great big stonecutter.

He understood all about it one Sun-
day.

After dinner Jack made for the front
room for his siesta. He had sat there
only a few minutes when Mary,
dressed to go out, came into the room.

"You know, Jack, Nora's going to be
married next week, and I want to run
down to mother's house for to have a
look at the frooco—or—oh, you
know—her wedding dress. The baby's
asleep and, anyway, I'll only be a
few minutes."

Jack had so suddenly been torn
from his dreaming that he did not
grasp the importance of the confront-
ing situation until Mary had gone
out.

"Gee, that's a hot one, leaving me
here with the baby," he exclaimed,
staring at the door through which
Mary had escaped, and from there,
with awe, at the crib in the corner.
"I only hope she won't be long."

Nothing occurred to break the quiet
of the room, and Jack, congratulating
himself on his good luck, turned again
to the street. But the calm always pre-
cedes the storm. He was watching the
leader of the district passing on the
other side of the avenue when a muf-
fled sound brought him back to his
responsibilities and made him jump
from his chair. It was a false alarm,
just a sob from dreamland, but the
father did not know it, and scented
all sorts of trouble.

With the perspiration breaking out
on his forehead, and willing greatly
in general, Jack tiptoed across the
floor. Just as he was within a few
inches from the crib a board creaked
loudly, and Jack, screwing up a hor-
rible grimace, stood as if petrified.

But the difficult trip had been worth
while. It was the first time that the
father had such a chance for a close
and undisturbed view of his baby. He
stood and stared and studied every
detail of the little thing.

Then, as he stood there, a great
longing came over him to touch, to
feel his baby, his very own flesh and
blood; but he was embarrassed,
afraid, and just clasped and unclasped
his big hands. He wanted to do it so
much, but before he could muster his
courage the baby awakened, opened
her eyes, and, feeling strong and
healthy, started in on lung exercise.
But Jack feared fits and convulsions
and was almost paralyzed with fright.

"Me, oh my, what'll I do now and—
but maybe she can't yell, eh?" he mur-
mured, not knowing what to do.

He gently shook the crib and begged
the baby to be quiet, but she only
yelled more lustily.

"What'll I do—oh what'll I do—
and—why couldn't Mary be here now?"
"She wants to be picked up," he
said, wondering at her marvelous cun-
ning. "Now, I wonder—I wonder if I
—if I couldn't try it, just for this
once?"

While he strained himself for an
effort which would have sent one of
his heavy stones spinning, he did so
only from nervousness. But when the
big fists touched the little elf there
was a tenderness in them which made
the baby gaze with wonder. She quick-
ly snuggled herself into his big arms,
and then the two, for the first time,
took a good look at one another, and
smiled.

But the sandman was still hovering
near and the tiny lids were heavy
with sleep. Jack, "jiggling her," walked
up and down without tiring. He knew
no lullabies, none had been sung for
him at his cradle, and as he walked
he composed his own impromptu
slumber song:

"And the fairies came down from the
hillside,
For to sing my sweet colleen to
sleep.
And they—and they—um-ta-rah, um-
ta."

Whether in minor or major, it must
have been in the right key and with
the proper lilt, for the baby fell sound-
ly asleep and did not even waken
when Jack put her back into the crib.

Then he went to his window and
lighted his pipe again, and there Mary
found him when she returned.

"I'm sorry I've been so long," she
began to apologize, expecting to be
scolded, "but you know how it is when
a lot o' women get together and get
to—"

"Don't say another word, Mary, my
dear," Jack assured her, and she could
scarcely believe her ears. "We didn't
feel the time passing—we got ac-
quainted."

And Mary wondered all the rest of
the day why Jack kept smiling to him-
self.
